Surface Indications

Who, a miner would very properly term "surface indications" of what is beneath, are the Pimples, Sties, Sore Eyes, Bolls, and Cutaneous Eruptions with which people are annoyed in spring and early summer. The effete matter accumulated during the winter months, now makes its presence felt, through Nature's endeavors to expel it from the system. While it remains, it is a poison that festers in the blood and may develop into Screfula. This condition causes derangement of the digestive and assimilatory organs, with a feeling of enervation, languor, and weariness—often lightly spoken of as "only vision of the digestive and assimilatory organs, with a feeling of enervation, languor, and weariness—often lightly spoken of as "only vision of the digestive and assimilatory organs, with a feeling of enervation, languor, and spring fever." These are evidences that Nature is not able, unaided, to throw of the corrupt atoms which weaken the vitril forces. To regain health, Nature must be nided by a thorough blood-purifying med-icine; and nothing else is so effective as

Ayer's Sarsaparilla,

which is sufficiently powerful to expel from the system even the taint of Hered-

itary Scrofula.

The medical profession indorse AYER'S SARSAPARILLA, and many affestations of the cures effected by it come from all parts of the world. It is, in the language of the Hon. Francis Jewett, ex-State Senator of Massachusetts and ex-Mayor of Lowell, "the only preparation that does real, lasting good."
